- B. Resolution No. 15-18: Demands and Warrants for July 2015
- C. Preliminary Financial Statement for the month of June 2015
- D. Award of Bid of the Civic Center Generator Project in an amount not to exceed \$40,000
- E. Award of Bid and Acceptance for the Fire Hazard Reduction Grant to Rock Tree and Hillside Service in an amount not to exceed \$81,090

**2. Public Hearing – Resolution No. 15-19: Adoption and Establishment of a New Fee for NPDES Inspections for Engineering Services**

The City has established a policy to recover its cost for services provided to the community. Over the last year the City has been reviewing many alternative revenue sources. Additionally, the City is required to comply with the Los Angeles County Municipal Separate Storm Sewer System (MS4) Permit (SWRCB Order WQ 2015-0075) mandating inspections for violation NPDES requirements. The City needs to recover expenses for these inspections. Staff recommends the City Council open a public hearing, receive public testimony regarding establishing an NPDES Inspection Fee and adopt Resolution No. 15-19 as attached to this report.

**3. Discussion – Authorization to Proceed with an Engineering Analysis of Extending the Public Sewer on Lemon Avenue**

The City has received notification from the Bradbury Community Services District (CSD) expressing a desire to extend the public sewer on Lemon Avenue into a portion of the Bradbury Estates via Barranca Road. It is recommended that the City Council authorize staff to proceed with an engineering analysis of extending the public sewer on Lemon Avenue.

**4. Discussion – Authorization to Proceed with the Woodlyn Lane Storm Drain Improvements**

The run-off from Mount Olive Drive upstream of Woodlyn Lane is channeled on the roadway surface and is directed down Woodlyn Lane past the private gates. There are no catch basins in the area to collect the surface run-off. There is a catch basin at the bottom of El Cielo Lane at its intersection with Woodlyn Lane, however, it is located in such a manner that the surface run-off from Mount Olive Drive does not enter the storm drain at this location. Thus, the result is an increased amount of surface run-off that continues westerly on Woodlyn Lane until it reaches the next downstream catch basin where it is finally collected into the storm drain. It is recommended that the City Council authorize staff to proceed with the completion of the construction plans for the extension of storm drain improvements in Woodlyn Lane.
